

BILLING CODE 6717-01-P

FEDERAL ENERGY REGULATORY COMMISSION

Questar Pipeline Company

Docket No. CP12-18-000

NOTICE OF APPLICATION

Take notice that on November 16, 2011, Questar Pipeline Company (Questar), 180 East 100 South, Salt Lake City, Utah 84111, filed with the Federal Energy Regulatory Commission an application under sections 7(b) and 7(c) of the Natural Gas Act seeking authority to expand its interstate natural-gas transmission system by abandoning 8.3 miles of 14-inch diameter pipeline and replacing it with 8.5 miles of 20-inch diameter pipeline located within Uintah County, Utah. Questar states it has no firm Transportation Service Agreements with shippers for the incremental 7,500 Dth/d of incremental capacity created by the Project. However, Questar states that it will accept the economic risk associated with construction of the Project, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Any questions regarding the application should be directed to L. Bradley Burton, General Manager, Federal Regulatory Affairs Division Counsel and Chief Compliance Officer Questar Pipeline Company, 180 East 100 South, P.O. Box 45360, Salt Lake City, Utah 84145-0360, or telephone (801) 324-2459 or by e-mail brad.burton@questar.com or to Tad M. Taylor, Division Counsel, 180 East 100 South, P.O. Box 45360, Salt Lake City, Utah 84145-0360 or telephone (801) 324-5531 or by e-mail tad.taylor@questar.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all

necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons

unable to file electronically should submit an original and seven copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street, NE, Washington, DC 20426.

Comment Date: December 22, 2011

Dated: December 1, 2011

Kimberly D. Bose,
Secretary.
